You, son of man—I have appointed you as a sentinel for the house of Israel; when you hear a word from my mouth, you must warn them for me. (Ez 33:7)

--by Fr. Rob Jack

God desires that all people be saved and come to a full knowledge of the Truth. We also know that while our spirit may be willing our flesh is weak. We can become preoccupied with many small things and miss the big things that are going on around us. The big things concern the plan of God and his love for us. This situation has been with the human race since the fall of our first parents.

> For that reason, God chooses certain men to become "watchmen." These are the people who stand at the city gates and watch the horizon for threats and dangers. The watchmen have the duty of alerting the people in advance to prepare them for what is approaching. In Sacred Scripture, these men are called Prophets. With the exception of the prophet Jonah, the people ignored or rejected their message and consequently were conquered by their enemies.

> > God continues to provide watchmen for the Church today. These are the Bishops and Priests whose mission is to guard and counsel the flock against those who wish to scatter it. In a broader way, Sacred Heart Radio serves as a "Watchman" to alert people to the "signs of the times."

These signs include the increase of the culture of death, the decrease of religious freedom in the world, and the indifference of many people to God and faith in his teachings. For twenty years it has been our mission to inform you so that you can be strengthened to live your faith in challenging times as well as repair when we surrender to sin.

The message of this age is simple. Only Prayer can change the course of the Church and the world. By the act of prayer we lift up our hearts, minds, and deeds to God. We thank God for his goodness, we plead for his guidance and protection, and we beg his mercy in atonement for our sins and the sins of others. Prayer is a witness to the world that God's love for us matters above everything else.

That is why we are again making our Prayer Tools available to Sacred Heart Radio listeners. The Prayer Tools consist of a rosary, Sacred Heart Badge, and a pamphlet of prayers to say every day. Our hope is that you will use these Prayer Tools and share them with your friends and family. Imagine if hundreds of thousands of Sacred Heart Radio's listeners pray the rosary every day in October, the month dedicated to the Holy Rosary, we could see an end to the coronavirus, a conversion of our country, and many other miracles!

God hears the prayers of his people and sees the changes that prayer makes in them. May the fruits of our prayer bring healing to the sick, liberate captives, sight to the blind and pour into the world God's grace.

FRIENDS IN HIGH PLACES

It was August 3rd, 2002 when Sacred Heart Radio's first generator was installed at 740 AM. I know that because, it was the day after our daughter was born. Fast forward 19 years and after several unsuccessful tries at repairs, we knew that the only way to guarantee the transmitter and tower lights would remain on during an electrical outage... was to buy a new generator.

Like most products, the supply chain was delayed due to the pandemic, but on June 27th a new 13-Kilowatt generator was installed. Here's a shot of the new beauty and the techs who put her in. God willing, she'll keep the Good News flowing over 740 AM, and the tower lights glowing for a decade or two-- using propane (and propane accessories) whenever the power goes out.

during a pandemic, the payoff in square footage and new technology was worth it. Yes, we were looking forward to a project-free 2021...until we lost the tower lease for 89.5 FM!

How to minimize the expense of moving to a new tower without losing any power or signal coverage was a two-fold problem. One option was to lease space on a tower owned by American Tower, which is about 400 feet up the road from our present site. But then we got a call from the owner of the tower we currently lease. They offered to donate the tower to SHR—IF we would pay to move it. That was an option worth exploring.

Fortunately, right behind our present tower site was a property owned by Cincinnati Bell that use to have tower on it. After contacting our rep in the Cinti Bell Broadcast Shop about the availability of the site, he went right to the top to appeal Sacred Heart Radio's case for a "friendly rate". It wasn't long before emails were being exchanged with CB's Real Estate VP and we were informed of their decision to DONATE the use of their property to put up our tower--and to also give us space in the equipment building for our transmitter as well!

Although it was a challenge to build new studios The news that we didn't have to buy a separate building to house our equipment was a real blessing, saving us \$7000-\$10,000 for the shed and shipping, in addition to the thousands more it would cost for the concrete pad and installation of new electrical service.

> But unfortunately, after on-site meetings with firms that specialized in tower relocations, we were told that new regulations wouldn't allow the old tower to be certified for use again, so we would have to erect a new tower at an estimated cost of \$150,000 or THREE TIMES our budget!!

> During all this, Jim Gray (our engineer) was in contact with the American Tower rep and because we showed no interest in leasing, he kept dropping the price. After additional negotiations the monthly rate was reduced even further, so we took that deal and will soon be moving up the road. And even though we'll be off-air for a short time during the installation, there will no loss in power or coverage!

> We would like to thank Cincinnati Bell for their generous offer and THANK YOU, LORDfor turning what appeared to be a cross-to-bear into a solid future for Sacred Heart Catholic Radio on 89.5 FM!

As the producer of **Driving Home the Faith** for the past three years, I've arranged the trips for all the "passengers" riding with us every day. Local friends, national visitors, international travelers—I booked their seats. At first, that meant introducing our brand-new, unknown program and host, Fr. Rob Jack, in every email and phone call and going from nothing to six guests a day, five days a week.

That's the producer's equivalent of going from zero to sixty in an instant—and staying there! At 60 MPH, two hours a day, we've logged about 90,000 miles and **1,500 hours** of divine drive time. Over those miles we've developed regular weekly and monthly

guests talking about everything from prayer to parenting, current events to charity. The passengers in our carpool include writers, researchers, bishops, experts in bioethics, university presidents, theologians, prolife leaders, attorneys, and even movie directors, all of them eager to talk about how to better DRIVE HOME our faith in our families, jobs, and communities.

I've been part of the Sacred Heart Radio family since my days as "Gail the Intern," and later spent five years as editor of "The Catholic Beat" daily web magazine. When I took up the producer's role, I had no inkling of some of the issues that would soon be challenging our Church and our world. We've worked hard to bring you a Catholic perspective on all of them, from gender theory to vaccine mandates. And as we face a future of growing secularism, social unrest, and the persecution of Catholics around the world, we promise to go the extra mile by giving you a blessed way to end the day.
